

PRAYER LETTER

PRAISE AND PRAYERS

Southern Region

1. Give thanks for Danielle Nel's fruitful trip to Botswana. She was able to visit a couple of Explore groups and assist with teaching and training. This trip gave her the opportunity to further explain what Biblical Theology to prison inmates who struggle to understand it. Please pray that the additional explanation they received will help them to grasp the Explore material better and assist them to understand the Bible for themselves.

South-Central and West African Region

1. Please continue to pray for Explore in West Africa and Mozambique. There are a lot of unknowns and a slowing down of Explore activities. Pray that God will strengthen the facilitators in these regions for this work and that they and their students will have a renewed commitment not only to Explore, but also to their growth as Christians.

East African Region

1. Give thanks for Nevil and Isaac Chiumia's successful trip and training sessions in Madagascar. There were 61 men and women eager to know God and to learn about how He has revealed Himself and His salvation plan through the pages of the Bible. Give thanks for their joy and enthusiasm and for the interpreter and translation team that made the training possible. Please pray that Explore will grow in Madagascar and that the trainees will continue digging into God's Word for His glory.
2. Please pray for the immense growth of Explore in Kenya. The rate at which students are enrolling for courses and writing exams is one we had not anticipated. Join us as we glorify God for His providence and please pray that our team, led by Misheck Mbevi, will be strengthened for the work ahead and that they will not be overworked or experience burnouts. Pray that the growth in Kenya may not just be in numbers, but in maturity of the students as well.
3. Please pray for Nevil and Saralee as they are in the process of finding a person to fill the gaps in Uganda. Pray that they will have discernment, wisdom and patience as they speak to different people and plan a way forward.
4. Give thanks for the promotion efforts of Garang Manyok (South Sudan) and Kuti Yassir (Nuba Mountains) to promote Explore in their various regions. Please pray that they will be blessed with more opportunities to establish and grow Explore in this region.
